1.0 Scope

This Software Version Description (SVD) applies to Netscape® Enterprise Server™, which is a commercial off-the-shelf (COTS) product developed by Netscape Communications Corporation. This document follows the standards set forth in *Military Standard Software Development and Documentation* (MIL-STD-498) and in the Data Item Description (DID) for a Software Version Description (DI-IPSC-81442), as tailored by Inter-National Research Institute (INRI).

1.1 Identification

This document applies to Version 2.01 of the Netscape Enterprise Server Segment. The Netscape Enterprise Server is a COTS product provided by Netscape Communications Corporation. The purpose of the Netscape Enterprise Server Segment is to provide web server functionality to HP® platforms running the HP-UX 11.00 Operating System.

1.2 System Overview

The Netscape Enterprise Server Segment is currently used by the Translation Maps Segment to display documents. The Netscape Enterprise Server Segment is compatible with DOD E-Business Exchange System (DEBX) Version 3.0. However, this segment is generic enough to be used by any project requiring a web server compatible with the HP-UX 11.00 Operating System.

1.3 Document Overview

The purpose of this document is to identify and describe the Netscape Enterprise Server Segment, Version 2.01. This document contains the following sections:

Scope

States the purpose of the Netscape Enterprise Server Segment, describes the role of the Netscape Enterprise Server Segment within DEBX, and states the purpose of this SVD. ([Section 1.0](#))

Referenced Documents

Lists the documents applicable to this SVD. ([Section 2.0](#))

Version Description

Provides descriptions of the changes made to the Netscape Enterprise Server Segment. ([Section 3.0](#))

Notes

Defines the acronyms and abbreviations used in this SVD. ([Section 4.0](#))

2.0 Referenced Documents

The following documents are referenced in this SVD. In the event of a later version of a referenced document being issued, the later version shall supersede the referenced version.

- *Data Item Description - Software Version Description* (DI-IPSC-81442), December 1994.
- *Military Standard - Software Development and Documentation* (MIL-STD-498), December 1994.
- *System Administrator's Guide for DOD E-Business Exchange System, Version 3.0*, INRI, May 2000.

3.0 Version Description

The Netscape Enterprise Server is a COTS product provided by Netscape Communications Corporation. It exists in its original, unmodified COTS form.

3.1 Inventory of Materials Released

The following physical media and associated documentation make up the Netscape Enterprise Server Segment Version 2.01:

- The Netscape Enterprise Server Segment is included on the *DEBX COTS Software CD*. (For installation instructions, see the *System Administrator's Guide for DOD E-Business Exchange System*.)
- *Software Version Description for Netscape Enterprise Server Segment Version 2.01 for DEBX Version 3.0*, INRI, May 2000.

3.2 Inventory of Software Contents

This section has been tailored out.

3.3 Changes Installed

The Netscape Enterprise Server Segment exists in its original, unmodified COTS form.

3.4 Adaptation Data

The Netscape Enterprise Server Segment is the same for all sites. Adaptation of the Netscape Enterprise Server Segment is completely driven by configuration files. The Netscape Enterprise Server Segment stores all adaptation data when configuring the COTS product for a site.

3.5 Related Documents

None.

3.6 Installation Instructions

Instructions for installing the Netscape Enterprise Server Segment are provided in the *System Administrator's Guide for DOD E-Business Exchange System*.

3.7 Possible Problems and Known Errors

There are no known problems or future enhancements to the Netscape Enterprise Server Segment.

4.0 Notes
